Adopted.
The special committee appointed by his Honor, Mayor Henry Lee, pursuant to a resolution of the Common Council, passed May 3d, 1909, "to inquire into the need of an investigation of business methods of the Board of Charities," reported: The committee has examined the

members of the Board of Charities with regard to the method of con-ducting the business of the board, has inspected the records and accounts of the Board, the Lakeview Home and the Department of Public Charities. The committee further held a pub-lic hearing, which was advertised by the press, for the purpose of allowing any person to submit complaints of

As the result of these investigations, the committee finds as follows:

No complaint has been made or fact

No complaint has been made or fact question the integrity of any member of the Board of Charities.

Certain irregularities in the conduc of the business of the Board have bee found, which the committee deems ad-visable to incorporate in this report

These facts appear of fecord, or have been verified by the Board, and in-volve no disputes of fact.

1. It is the practice of the Board of Charities, either acting as a board of through its purchasing agent, to enter into contracts, both large and small, without public advertisement, and in some instances without even private completion. Section 96 of the Ordinances of the City of Bridgeport provides that contracts, which involve the expenditure of more than two hundred dollars, shall be publicly advertised. The majority of the supplies, as meat, groceries and other provisions, are purchased at the contract of the supplies and a provide a contract in the contract of the c chased at short intervals and rarel involve an expenditure of two hundre dollars at one time. Other contracts in effect extend over a period of one year and involve more than the expenditure of two hundred dollars; thus, the conof two hundred dollars; thus, the contract for coal for the use of the Department is made annually, and involved in the fiscal year 1908-1909 the sum of \$3,297.54. In 1908 requests for bids were submitted to three dealers, and in 1909 to two dealers, and the Board in neither instance advertised for proposals. This was a clear infringement of the ordinance, and, in the opinion of the committee, inconsistent with good business principles. The experience of the other boards of the city in contracting for coal disthe city in contracting for coal dis-closes a wide range of bids among the various dealers, and there is reason to

believe that a proper submission of proposals would have obtained a like result in this instance.

The committee also believes that an advantage would result in submitting contracts for other supplies, so far as

contracts for other supplies, so far as practicable, to public competition.

2. In at least two instances supplies have been furnished by or contracts made with members of the Board, or business firms in which the members were financially interested. These contracts involve considerable amounts, and were made without competitive bidding. The committee has examined these contracts and purchases, and these contracts and purchases, and finds that the prices were fair and reasonable, and that the city has suffered no financial loss thereby. It is, however, the opinion of the committee that transactions of this nature are opposed to the principles of good government, and that the interests of the man, and one citizen be appointed by city require that members of the Board the mayor, such a committee to conshould not accept contracts from the

Board, either directly or through the purchasing agent, without the safe-guard of competitive bidding. guard of competitive bidding.

3. The system of checking supplies for the purpose of comparing actual weight and quantity delivered with that stated in the bills of the desiers is not complete or certain in its operation. Considering the large amount of supplies furnished the Department of Public Charities, it seems of vital importance that this system of checking should be thorough and such as would permit no possible neglect upon the part of an employe.

4. The system of distribution of supplies to the outside poor is efficient, and the Department is conducted in a careful and painstaking manner.

and the Department is conducted in a careful and painstaking manner.

5. For the fiscal year 1908-1909, there exists a deficit in the Department of Public Charities of \$34,884.04 of which \$4.811.51 was carried over from the previous year. The total increase of expenditures in 1908-1909 over 1907-1908 on account of the regular expenses of the Department amounted to \$25,427.07. This increase is divided as follows:
Lakeview Home,

Expenses chargable to outside poor, as groceries, coal,

poor, as groceries, coal, rents, etc., Charge for care of sick and

Charge for care of sick and insane.

Ambulance and Emergency. 1.402.98

The increase of \$8,112.95 includes an increase of \$6,431.80 in the accounts with the Bridgeport and St. Vincent's Hospitals. The patients in these two hospitals are received on the order of any one of the city physicians, and a uniform charge of five dollars a week is imposed. This increase in the hospital accounts seems disproportionately large when compared with the increase in other branches of the Department. is imposed. This increase in the hospital accounts seems disproportionately large when compared with the increase in other branches of the Department. This is more noticeable when comparison is made with former years. In

1894 the total expenditure of the Board of Charities, deducting the cost of the disposal of garbage, which at the present time is chargable to a separate account, amounted to \$59,973.90, while account, amounted to \$3,373.39, while the hospital charges amounted to \$2,-063.33. In 1900 the total expenditure was \$53,303.53, and the hospital charges amounted to \$5,077.18. In 1906 the total expenditure was \$64,135.00 and the hospital charges amounted to \$7,403.85. In 1900 the total expenditure of \$7,403.85. 1909 the total expenditure of the Board was \$114,668.28, while the hospital charges were \$19,719.11. Thus while the total expenditure has a little more than charges have increased nearly three-fold since 1906, nearly four-fold since 1900, and six-fold since 1894. This large and disproportionate increase in this branch of the Department de volves upon the Board a careful study of the causes as well as of the efficiency of the present methods of the

city physicians.

The reason for the material increas in the expense of the care of the poor, both at Lakeview Home and in the city, was to a certain degree unavoidable, and accountable for by the business depression which extended over the fiscal year 1908-1909.

From the attention and study which

the committee has been able to devote to the subject of the methods of the the committee has been able to devote to the subject of the methods of the Board of Charities, the committee has arrived at a conclusion that no suspicion rests upon the actions of the Board of Charities, or its individual members, requiring a further investigation. It is, however, the opinion of the committee that a thorough reorganization of the business methods of ganization of the business methods of the Board is necessary, and for this reason the committee has possibly ex-ceeded the directions of the Common Council in the resolution of May 3, 1909 in thus laying before your honorable body the facts which have been herein set forth. It is only fair to the Board to call your attention to the peculiar difficulties in the management of this Department. The support and care of the poor in a respectable and decent manner is not only necessary by rea-son of the law of universal humanity but is made mandatory by the statute law of the state, regardless of cost. Sudden and violent fluctuations in the amount of charity which it is neces-sary to dispense render the estimates for future appropriations uncertain future appropriations uncertain, occasional deficits are unavoid-there is a large amount of detail in the purchase of supplies, and the oversight of the Department, which devolves upon the Board. If, however the difficulties are great, there should be a corresponding degree of care in the business methods of the Board, and to render the conduct of the Department successful there must, in the opinion of the committee, be a sysematic reorganization of the bu methods of the Board. While deficit in years of abnormal business condi tions are unavoidable, they are, in normal years, inexcusable, and can be avoided by a definite method of com-puting the cost of maintaining the De-

be open to public competition. custom of allowing members of the Board to contract with the Board should cease, except when safeguarded by public competition. The system of thecking weights and quantities of a commodities should be extended an

and carried out by the Board of Charl-tles under the guidance, if necessary of an expert in business systematiza-tion, and are neither within the pur-pose nor scope of a committee of in-

Adopted. RESOLUTIONS

Alderman Wilder: Whereas, His Honor, Mayor Henry Lee, has recommended in his annual message to this body, that a committee be appointed to confer with the Connecticut Company in reference to obtaining six (6) tickets for twenty-five (25) cents, as fare on the trolley cars of the Connecticut Railway Com-

### CAN'T LOSE HAIR

Twenty Years From Today a headed Man Will Be An Unusual Sight

One of the most prominent druggists of America made a statement a few weeks ago which has caused a great deal of discussion among scientists in the medical press.

He said: "If the new hair grower, Parisian Sage, increases its sales as it has during the past year, it will be used by hearly every man, woman and child in America within eight years."

"And when Parisian Sage is used almost universally, dandruff will disappear and with its departure baidness, itching scalp, splitting hair and all scalp diseases will follow and twents years from now a baidhead will be erarity."

There is only one way to cure dandruff and that is to kill the germs. There is only one hair preparation that will kill the germs, and that is Parisian Sage.

will kill the germs, and that is Parisian Sage.

This unusual hair restorer with its record of thousands of cures will grow hair on any head where there is any life left; it is guaranteed by Leverty & Bro. to cure dandruff, stop falling hair and itching of the scalp in two weeks, or money back.

It is the most pleasant and invigorating tonic, is not sticky or greasy and is used extensively by ladies of refmenent, who desire to have and to keep their hair soft, lustrous and luxuriant. The girl with the Auburn hair is on every package of Parisian Sage.

Only 50 cents for a large bottle at Leverty & Bro. and leading drugstee everywhere, and remember when you buy a bottle of Parisian Sage you get more for 50 cents than the makers of ordinary tonics give you.
